

**DISASTER MANAGEMENT**

|                 |  |                          |
|-----------------|--|--------------------------|
| define disaster | Are the events and occurrence placed in the category of disaster notified by the government  | Yes=100;<br>No=(-)150    |
|                 | Is there laws and rules specifying that mishappenings of the same type occurring more than four times over the nation's area and causing loss of life even in one case, classified as disaster   | Yes=100;<br>No=(-)150    |
|                 | Are the following classified as disaster   |                          |
|                 | Fire case in urban area  | Yes=100;<br>No=(-)150    |
|                 | Fire in non-urban area   | Yes=100;<br>No=(-)150    |
|                 | Flood  | Yes=100;<br>No=(-)150    |
|                 | earthquake   | Yes=100;<br>No=(-)150    |
|                 | spread of disease  | Yes=100;<br>No=(-)150    |
|                 | landslide causing loss of life and damage to property  | Yes=100;<br>No=(-)150    |
|                 | cyclone/tornado  | Yes=100;<br>No=(-)150    |
|                 | airplane crash   | Yes=100;<br>No=(-)150    |
|                 | train accident killing 5 people or more  | Yes=100;<br>No=(-)150    |
|                 | Road accident of collision of two vehicles   | Yes=100;<br>No=(-)150    |
|                 | Are there reoccurrence of same disasters in the same unit region /district within two years  | Yes=(-)100 each incident |
| laws/rules      | Is there law and rule that government must take action for prevention of disasters by vigil and alertness  | Yes=100;<br>No=(-)150    |
|                 | Are there laws and rules making government responsible to control and minimize the disasters   | Yes=100;<br>No=(-)150    |
|                 | Are there laws and rules that government must place statistics unit-regionwise and yearwise, regarding number of cases of each disaster during last four years on its public domain  | Yes=100;<br>No=(-)150    |
|                 | Do the government places details of each disaster on public domain every six months for different province covering 1) details 2) location 3) root cause 4) details of loss of lives and property 5)GPP actions satisfactory or not 6) total time from reporting to 100% control over disaster | Yes=200;<br>No=(-)250    |
|                 | Does the government compare six monthly figures of occurrence of disasters for last two years to exhibit success in controlling the same   | Yes=200;<br>No=(-)250    |
|                 | Does the law and rule exist that government has responsibility to contain the disaster   | Yes=100;<br>No=(-)150    |

|                      |   |                       |
|----------------------|---|-----------------------|
|                      | Are there laws and rules to specify the responsibilities of GPP at national level government for prevention of disaster   | Yes=200;<br>No=(-)250 |
|                      | Are there laws and rules to specify the responsibilities of GPP for prevention of disaster at state/province level government   | Yes=200;<br>No=(-)250 |
|                      | Are there laws and rules to specify the responsibilities of GPP for prevention of disaster at unit region/district level government   | Yes=200;<br>No=(-)250 |
| Procedures           | Are disaster management DOUEE contact details standardized by government  | Yes=100;<br>No=(-)150 |
|                      | Are reporting/complaints about an occurrence got automatically recorded and can not be altered and destroyed  | Yes=100;<br>No=(-)150 |
|                      | Are the procedures for handing different eventualities of disaster standardized and notified by government  | Yes=200;<br>No=(-)250 |
|                      | At district level, are the roles of different GPP with responsibility earmarked in procedures for accepting report, coordination for informing all concerned, assembly of all concerned GPP in readiness to move, list of equipment to be carried, verification of equipment being properly tested, positioning of GPPs at site, different actions each one supposed to do and providing medical aid at site--for each type of disaster | Yes=200;<br>No=(-)250 |
|                      | Is captain of the action plan for different eventualities announced with responsibilities to save the life of people  | Yes=100;<br>No=(-)150 |
| Reports              | Is there standard procedure to prepare report of each incident within four working days mentioning the log of events with time viz report received, informed DH and other concerned GPP, team readiness, details of all men material, equipment left, relief action start, relief action progress in five stages 20%, 40%, 60%, 80%, 100% done,   | Yes=150;<br>No=(-)200 |
|                      | Is there standard procedure that DH shall forward to the government level with specific mention that "if any better action was possible or this was the optimum"  | Yes=150;<br>No=(-)200 |
|                      | Is there a procedure that DH shall place the report on its public domain alongwith its comments within 10 days from the incident  | Yes=150;<br>No=(-)200 |
|                      | Is the complete report placed alongwith government's comments on government's public domain   | Yes=200;<br>No=(-)250 |
| Action plan notified | At government level, are the procedures standardized to evaluate the time taken for various stages  | Yes=100;<br>No=(-)150 |
|                      | At government level, are the procedures standardized to evaluate the time taken for various stages and and government confirms that no better action was possible   | Yes=100;<br>No=(-)150 |
|                      | Does national/state government notify its action plan to specifically mention that 'how such disasters to be prevented' in future'  | Yes=150;<br>No=(-)200 |
