

Government company GC

Note: This is a modelling, done based upon analysis of existing facts and evolving reasoning, as to how the 'Government' and 'Constituents of Governance' are likely to behave and function 'influenced by normal human attributes' under different 'probable conditions' and does not imply projection or criticism of 'any particular government system in the world'. Any explanation in this 'coinciding with any working Government system' shall be an unintentional coincidence only.

MUD-Money undue; TOSI-Threshold point of self-interests'; PBD-Private business domain; GBE-Government business entity'

Stringent norms for GBE	Is Government company constituted and controlled under same laws as for non-government company(PBD) or under different stringent laws(GCL), regarding performance and public obligations	Same laws=(-)250; Stringent laws=150
