

Governance Master slave-PL Group formation

Note: This is a modelling, done based upon analysis of existing facts and evolving reasoning, as to how the 'Government' and 'Constituents of Governance' are likely to behave and function 'influenced by normal human attributes' under different 'probable conditions' and does not imply projection or criticism of 'any particular government system in the world'. Any explanation in this 'coinciding with any working Government system' shall be an unintentional coincidence only.

If direct communication slacken between Government/MGG and citizen , PL1-Public leader; would come up and the MGG shall transform into 'authority mode'.
