Note: This is a modelling, done based upon analysis of existing facts and evolving reasoning, as to how the 'Government' and 'Constituents of Governance' are likely to behave and function 'influenced by normal human attributes' under different 'probable conditions' and does not imply projection or criticism of 'any particular government system in the world'. Any explanation in this 'coinciding with any working Government system' shall be an unintentional coincidence only.

Nation's and Government's Reputation assessment:

Accomplishment factor	Is the performance in top world level events noticeable for more than ten years in the field of sports, culture, environment, academics, economics, science, technology, by winning awards at top three positions in more than 50% of events	Yes=100 per field ; No= (-)200 for each field
